Verdis combines engineering and construction services under one roof to provide one-stop shopping for private, commercial and government clients. We have been in government contracting for 10 of our 20 years in business and have successfully performed on over 275 task orders for state and federal agencies in 15 states, including Alaska and Hawaii. Verdis has been recognized as:

- *2020 Idaho PTAC's Small Business of the Year*
- *2022 SBA Woman Owned Business of the Year*
- *2024 SBA Small Business of the Year nominee*
- *2025 Spokane Journal of Business Medium Business of the Year*
- *Orchid Award Excellence in Historic Preservation Award recipient from State of Idaho Historic Preservation Society*

CORE COMPETENCIES

Heavy and Civil Construction
Commercial and Institutional Office Buildings
Historical Building Preservation
National Park Visitor Centers
Campgrounds
Hydroelectric Dams
Bridge, Trestle and Pier Repairs
Marinas

CORE CAPABILITIES

CONSTRUCTION SELF-PERFORMANCE

Project Management
Excavating
Demolition
Concrete
Plumbing
Siding
General Carpentry
Roofing
Flooring
Painting and Drywall
Windows and Doors
Remodels
Dams
Marinas
Fire and Life Safety Inspection Services

CIVIL ENGINEERING

Grading and Infrastructure
Stormwater Modeling and Design
Sanitary Sewer Collection and Treatment
Water Distribution, Storage Tanks and Reservoirs

EXPERIENCE

US Army Corps of Engineers
US Air Force
US Navy
Federal Aviation Administration
National Park Service
US Forest Service
General Services Administration
Homeland Security

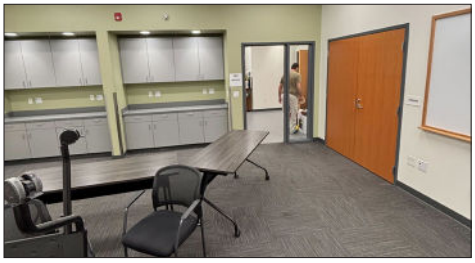

REPRESENTATIVE PROJECTS

NORTH IDAHO DEFERRED MAINTENANCE

Verdis was the prime contractor for the design-build contract, including upgrades and maintenance for North Idaho College, Department of Parks & Recreation, Department of Labor, Idaho State Police, Department of Lands, and Idaho Military Division. Tasks included replacement/upgrades to utilities, HVAC, electrical, roofing, site improvements, windows, doors, elevators, backup generators, restrooms, and sidewalks. The work included buildings critical to the operations of each agency and provided necessary upgrades in efficiency, building use, and occupancy.

AGENCY: Idaho Department of Public Works
LOCATION: Various, North Idaho
PROJECT VALUE: $17,369,683 (to date)

USFS DISPATCH OFFICE

Verdis was the prime contractor for renovation of the USFS Interagency Dispatch Center. The office space is used by multiple agencies and remained operational during the renovation. The renovation included an updated floorplan for the office space to provide additional functionality and capacity for the operational needs of all agencies. The renovation included new HVAC, electrical, plumbing, fire suppression, and data to accommodate the new walls, office space, and conference areas. All finishes were completed including walls, flooring, ceilings, and casework.

AGENCY: U.S. Forest Service
LOCATION: Coeur d'Alene, ID
PROJECT VALUE: $711,454

CAVANAUGH HOUSE UPDATE

Verdis was prime contractor on this historic building renovation. Work included selective demolition of the breakfast nook, bathrooms, kitchen, master bedroom and adjoining hallway. Kitchen renovations included wall reconfigurations, new cabinets/countertops, electrical, paint, tile floor and appliances. Verdis also installed new doors and hardware, historic hardwood floors and stair refinish and repair, window treatments, lighting, asbestos abatement and lead abatement.

AGENCY: USACE, Seattle District
LOCATION: Seattle, WA
PROJECT VALUE: $445,320

LOWER GRANITE DAM MAINTENANCE BENCH & SLOPE STABILIZATION

Verdis was the prime contractor for soil and rock excavation on an extremely steep slope located underneath an active fish ladder. Concrete retaining walls up to 16 feet tall were installed on the downhill side, and 180 1-inch diameter rock anchors were drilled 6 feet into the rock face with wire mesh to support shotcrete slope stabilization on the uphill side. These foundation operations allowed construction of a concrete access ramp and storage area, entailing 5,000 square feet of concrete paving. Additional infrastructure included a storm water management system to pass water from the slope to the adjacent river.

AGENCY: USACE, Walla Walla District
LOCATION: Lower Granite Dam
PROJECT VALUE: $2,800,000

CHATCOLET MARINA REPLACEMENT

Verdis was the prime contractor for the design/build effort to replace and expand the Chatcolet Marina and parking lot at Heyburn State Park. The project scope includes a state of the art 164-slip marina with fueling and sanitary services, a 1,064-foot-long, 8-foot-wide community-accessible breakwater, new boat launch, parking lot, general store and public promenade.

AGENCY: Idaho Department of Parks and Recreation
LOCATION: Plummer, ID
PROJECT VALUE: $25,259,000
